

From Friday's Daily.

The Tombstone school has now 140 scholars, an increase over last year.

School supplies of every description below New York prices at Yapple's.

The Tombstone baseball club is anxious to hear more about the pen-and-ink and the Wilcox team.

A Mexican was brought over from Bisbee last night under sentence of 12 days for shooting up the camp.

It is said that President Harrison will give M. M. Estee a place in his cabinet.

The Gazette says Tom Dunbar will fatten 1000 steers on alfalfa this winter near Phoenix.

An order of sale has been issued out of Justice Alvord's court for some horses belonging to defendant in the case of Swain vs. Sattilo.

F. W. Braley has commenced in Justice Alvord's court a suit in claim and delivery against H. T. P. for the recovery of a cow.

Lost—On Wednesday night, a colt with a long rope attached to the neck, Mexican brand and vent. For further information apply to A. Bauer.

The sale at Huachuca yesterday was largely attended and everything sold brought good prices, higher prices in many instances than was the original cost to the government.

Dr. Goodfellow made the trip yesterday from Tombstone to Tucson in 1 hour and fifty-five minutes. This is probably the quickest time on record.

Mrs. Jennie Dumont, wife of W. G. Dumont, both of whom were well known in this city, died in Kansas on Sept. 16. Mr. Dumont, who is a carpenter of the A. & N. M. road, left in answer to a telegram telling him of her serious illness, but did not arrive in time to see her alive. Beside her husband she leaves two small children to mourn her loss.

MELBOURNE, the rain wizard, is contracting in Nebraska to make it rain over an area of 50 square miles for \$500. The fall is to equal 1/2 inch.

The El Paso Times is authority for the statement that Supt. Noble of the Pacific system of the Southern Pacific has gone over his division from the city of Yuma, Arizona and notified his telegraphers personally to either withdraw from the O. R. T. and B. of T. or leave the company.

The Tempe News protests against the low price of printing as fixed by the last legislature. It is true that Arizona papers get a smaller price for advertising than those of any other territory in the west. The territorial printing law allows a daily paper no greater price for advertising than a weekly, which is certainly an injustice. The next legislature will be called upon to remedy some of these evils.

A diplomatic controversy has arisen between the United States and Great Britain about the proper construction of the Chinese exclusion act as it affects Chinamen residing in Canada and who enter the United States. The questions involved have been brought officially to the attention of the United States government by Sir Julian Paulefort, who has requested the president to pardon Chong Sam a Chinaman now in jail at Port Huron, Mich. on the charge of being unlawfully in the United States.

The members of the convention who fell in with Judge Barnes' argument against uniformity of text books yesterday were few and far between, indeed; the most of them looked at the Judge in a sort of astonishment that he should, by fundamental law, attempt to fix upon the people of the state the most extravagant and burdensome school book system known, to say nothing of the extra chance for jobbery in every county, town and hamlet which such a system would entail. And yet the Judge said he proposed to take a step forward. The question naturally arises as to where he stands, if that is a step forward.—Phoenix Herald.

STANLEY RESIGNS.

BERLIN—The object of Henry M. Stanley's visit to the king of the Belgians is to resign his position as governor of the Congo State. The post has been declined by a German officer of colonial experience in Africa.

NEWS BY WIRE.

THE MEXICAN REVOLUTIONISTS.

WASHINGTON—A dispatch received today at the state department from the United States consul at Matamoros, Mexico, says that Garcia and his party of revolutionists are being closely pursued by Mexican troops and a final engagement is expected today. It is believed that Garcia will try to cross the Rio Grande into the United States at Salicino or Beinosi, or perhaps at Logualto.

The contents of the dispatch have been forwarded through the war department to the commanders at Fort Brown and Fort Ringgold in order that they may intercept the party.

WOOD DAVIS.

SAN FRANCISCO—The Wood-Davis mill is all the talk in sporting circles. It is claimed that Woods struck Davis nearly five seconds after the gong struck in the critical ninth round, but the foul if such it was, was condoned by Davis' seconds allowing the fight to go on. The confusion was such at the time that few spectators heard the sound of the gong. Opinions differ as to whether or not Davis was actually over the ropes when Woods struck him in the last round but the decision of the referee was against this. Davis was punished badly. Woods was little marked.

NOTE RAISING.

WASHINGTON—Probably the most expert piece of note raising ever attempted has been received at the treasury department from Denver, Colorado. It is in the form of a dollar certificate with the Martha Washington head, raised to a ten dollar national bank note. When the great difference in the designs is taken into consideration the work of the note-raiser is certainly remarkable and can not be detected without a close scrutiny.

THE TELEGRAPHERS.

CHICAGO—The Order of Railway Telegraphers and Brotherhood of Telegraphers in Chicago were amalgamated last night. This action was taken in accordance with the decision of the national convention of the first named body at St. Louis last Monday.

PEACEFUL.

GUTHRIE O T—The news from Chandler is reassuring. The Guthrie Daily News says a courier from that place reports that the soldiers still hold the town site and that the settlers have made no attempt to occupy it by force. A town site company has platted a town on the quarter section immediately adjoining the government's town-site and most of the people who rushed to Chandler to claim lots have taken claims on Chandler's neighboring rival.

HOLY COAT.

TREVES—The exhibition of the Holy Coat will end on October 4th. The number of pilgrims who have viewed the coat already exceed the total number of those who viewed it in the exhibition of 1842, and the total number in this exhibition will probably reach 2,000,000.

ADULTERATED BREAD.

ST. PETERSBURG—An analysis of the bread sold in many places by unscrupulous merchants reveals the fact that absolutely poisonous mixtures are sold. Several merchants have been arrested at Sors-haus and will be summarily tried. Many specimens of such bread consists of 70 per cent of earth and sand and 30 per cent of refuse farinaceous products.

THE MEXICAN BOUNDARY LINE.

WASHINGTON—The president today appointed Lieutenant Colonel John W. Barlow, Captain Thomas W. Symonds and Professor O. T. Mohan as members of the Mexican boundary commission, which is authorized by congress to re-locate the existing frontier between the United States and Mexico, west of the Rio Grande.

WAR TALK.

PARIS—The Dix Neuvine Sieci publishes a dispatch from a correspondent in Baden, giving the substance of a speech which it is claimed was made by the grand duke of Baden at the close of recent manœuvres of the southwest army. According to this dispatch the grand duke said: "Since the last manœuvres of our army the situation in Europe has been modified. The sacrifices which Germany has undergone in order to guarantee peace will not be hindered by the culpable proceedings of our neighbors who are only awaiting a propitious occasion to again open an era of bloody conspiracy. We must regard the future with energy and resolution. The time is near when Germany must again unsheath her sword in defense of her independence against an enemy who has not learned prudence by bloody defeat." The same paper says that the speech has created a great sensation in Baden, and that while the German press has not published it, its authenticity cannot be denied.

RUMORS OF WAR.

ODESSA—There is a steady movement of Russian troops for the west. Temporary barracks and accommodations have been provided between here and Warsaw. The military officials are reticent. The admiralty has ordered that all the large Russian Steam Navigation and Trading Company's as well as the volunteer fleet, be equipped with powerful davits, like men-of-war.

ILL.

SARATOGA—The Rev. Dr. S. D. Burdard, who was a conspicuous figure in the presidential campaign of 1884 is critically ill in this city.

BUCK.

WASHINGTON—The president has received many letters from Kentucky democrats recommending Mr. Charles W. Buck who was United States minister to Peru under the Cleveland administration for the position of Interstate-commerce commission instead of Walter L. Bragg deceased.

Prof. Loissette's Memory System is creating greater interest than ever in all parts of the country, and persons wishing to improve their memory should send for his prospectus free advertised in another column.

BILL OF RIGHTS.

As Adopted by the Convention of State Makers at Phoenix.

The first idea of what has been done toward framing the constitution is conveyed by the bill of rights as adopted on Tuesday last. The Gazette prints the most important parts which will prove of great interest to the general public.

The bill divides the powers of the government of the state into three distinct departments, the legislative, executive and judicial.

The power of the federal government over the state is recognized as supreme.

The military is declared to be in subordination to civil power.

The right to bear arms in defense of self or government is allowed.

The right of person and property trials, suits, punishments and the process of obtaining witness are justly provided for. Where the value in controversy exceeds \$20 the right of trial by jury is preserved. Unless for capital offenses all prisoners are bailable. No bill of attainder or ex post facto law shall be made. Imprisonment for debt, except in cases of fraud is denied. A three fourths verdict in crimes less than felonies is allowed. Perpetuities and monopolies are declared to be against the genius of free government and are prohibited.

The free exercise of religious worship is vouchsafed, and no person is excluded from holding office or acting as juror because of his religious belief.

Bigamy and practices of polygamy are classed as felonies and subject to punishment as other felonies.

Elections are declared to be open, free and equal, and civil or military interference is denied, and property qualifications are repudiated.

Lotteries are prohibited, railroads are declared to be public highways and a few other unimportant sections completes the provisions of the Bill of Rights, the adoption of which consumed the entire day.

HAND TO HAND.

Handy was the Aggressor in the Struggle Which Ended His Life.

A Fearful Struggle for the Possession of a Pistol.

TUCSON—Dr. J. C. Handy was shot and fatally wounded by Frank J. Heney, a prominent lawyer, here at noon yesterday. According to testimony at the examination yesterday afternoon Heney and his clerk met Handy who pushed by, glaring at Heney; they had just fairly passed each other when Handy whirled and said "You son of a b—, who are you looking at," at the same time grabbing Heney from behind and whirling him around, then he seized Heney by the throat and pressing him against the wall choking him with all his might. He then let go and struck Heney saying "take that you son of a b—." Heney then broke loose and started to run, Handy rushed after him and was right on him when Heney drew a revolver. The instant the pistol was drawn Handy seized it and in the struggle for its possession it was discharged the ball entering the abdomen and passing through the intestines. When attention had been directed by the shot and the struggle of the two men for the possession of the revolver held in Heney's hand, both were struggling with all their power one to retain and the other to secure possession of it. Handy fell under, holding Heney close to him with the revolver tight under Handy's body and in Heney's hand. Handy held Heney's wrist with all his strength and when approached each refused to loosen his hold, "Don't Shoot" "Don't Shoot," was heard on all sides and Heney cried several times: "If he will let go I won't shoot." Handy did not let go however and by another minute a throng had gathered, among them deputy sheriff John Wiegler. He, with assistance removed the revolver. Both assailants struggling to keep it that the other might not get its possession. When they became separated it was seen for the first time that Dr. Handy was shot. A powder burned hole in his shirt was shown and he said "Take me home at once. I have been shot." Frank Heney did it. He was at once led to his office, a block away, supported on his either arm.

Heney at once gave himself up to Under-sheriff Sullivan and engaged counsel. At 3 o'clock he was taken before Judge Culver for examination and his bond set at \$6,000. The bond was at once furnished. The affair has attracted intense excitement in the city as both parties are highly connected. Sympathy is divided but rather in favor of Heney. An old feud is at the bottom. Heney was counsel for Mrs. Handy in a suit for divorce. Twice before shootings have almost occurred between the two. Once they met while driving in a narrow road and each refused to leave the road. Afterwards Handy turned out. Later they were prevented by bystanders from another affray. Each has said enough to warrant the present difficulty. Trouble was long expected and surprised no one.

Dr. Goodfellow arrived at 8:30 and after consultation decided to perform an operation. Beginning at 10:30, as they were completing it at 1 o'clock a. m. the patient died.

RECORDS LOWERED.

PEORIA, Ill.—C. W. Dornstager of Buffalo, New York, established a record for ten and twenty miles on a bicycle with a patched up tire. He lowered the ten mile record from 28.37 to 26.46 3-5, and twenty miles from 58.20 to 53.56 2-15.

From Wednesday's Daily.

The equinoctial storms are upon us and are welcome.

Mrs. J. B. Barnett was a passenger on the incoming coach today.

There is a prospect of good rains this fall, so say the oldest inhabitants.

A Joerger came in today from his mountain brewery with a load of his famous beer and porter.

Mrs. M. A. Howell has returned to Tombstone after an absence of several weeks in Bisbee.

Forepaugh's circus has not yet been killed for Arizona and the chances are that it will give us the go by.

One of the interesting features of the Albuquerque fair was the game of "shiny" played by forty Mohave Indians.

A personal in the San Francisco Chronicle says: "Dr. Warneke, a prominent landowner of Arizona is at the Baldwin."

The constitution makers are getting along swimmingly, but the Phoenix papers are not intelligible, referring only to sections by numbers.

A dramatic company which is an organization of all the talent in Tombstone and the adjoining hills, will give an entertainment in the near future at Schieffelin Hall.

THERE is a growing desire on the part of young America to master the Spanish language. In the eastern cities it is rapidly becoming popular as an accomplishment. The Chicago Herald puts it this way:

A language that is spoken not alone in Spain, but in Mexico, Central America, Cuba, Porto Rico, nearly the whole of South America, on the Canary Islands, on the Philippines, embracing a territory three times as large as that of the United States and a population fully as large as ours, must of itself claim our attention. Our trade with Spanish America alone would immeasurably grow if an honest attempt were made on this side of the line to remove the great obstacle of mutual ignorance of the two languages.

Consumption cured.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all Throat and Lung Affections, and a positive and radical cure for Nervous Debility and a Nervous Complaints after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellow-men. Actuated by this motive and a desire to relieve human suffering, I will send free of charge to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with above mentioning this paper, W. A. Novak, 820 Power's Block, Rochester, N. Y. 1. 18. 1 y'r w

Paint Shooting.

A dispatch received in Tombstone from Tucson, just before going to press states that Dr. Handy was shot in the bowels by — Heney, about 3 p. m. today. Handy will die. No further particulars.

HOTEL ARRIVALS.

BORN.

ENGLISH—In Tombstone, Sept. 19, to the wife of Allen B. English, a son.

HARSHAW AND WASHINGTON.

Good News for Zinc Mine Owners and a Good Report From Harshaw and Vicinity.

HARSHAW, Sept. 21st, 1891.

ED. PRO-PECTOR—Dullness reigns supreme; all the bright anticipations of a few weeks ago have sobered down into the following few facts: The "Hermosa" is still a name to conjure with for chloriders. After Mr. Finley withdrew his men, the same lucky mortal, Mr. Chas. Powers, took another lease, when—presto! changed the ore obediently appeared at his magic touch. The other names associated with his in the bond are Thomas Davis and James Hubbard. The adjoining mine, the Hard-hell, is being worked under lease to Mr. Jack Snyder of Tucson and Messrs. Thomas Shran and Frank Maquire, with what success is not known.

Harshaw is almost rent in twain over the postoffice muddle, which has proved a veritable empet in a teapot. Some rumor of it has, no doubt, reached the outside world, but the true inwardness of it is not yet known to your correspondent. In the fullness of time it will all, no doubt, be revealed and explained.

At the Mowry the work is nearly completed for the placing of the new hoist. It is stated on good authority that Mr. Albert Steinfeld is now in New York for the purpose of effecting a sale of the property.

There has been an atmosphere of suppressed exultation surrounding the Washington Camp men which caused no little curiosity among the Harshawites. The rivalry existing between the two camps on account of the merit claimed by their respective ores, has caused some bitter feeling. The Harshaw boys would simply say "zine" to a Washingtonite and straightway the latter would collapse.

But now a change has come over the spirit of their dreams and the Washington crowd simply repeat the word "zine?" but with the different inflection, you will observe. It has leaked out that they are in receipt of circulars from the smelters asking about the formerly despised metal and bidding well for it.

Under these circumstances the Holland mine, head to York, Fields and Gleam is likely to prove a bonanza to the persevering trio. The Allen group of mines will also be benefited although they are sufficiently high grade to warrant the shipment of the ore, three carloads of which have just been dispatched. At the Trench all is silent now except for the clatter caused by the Chinese cook at the boarding house which now does duty for the Alum Gulch crowd. Of these last a few words are necessary to complete this sketch:—To them is certainly due the credit of developing a long neglected section and thereby adding to Harshaw's laurels.

The first to astonish the old residents was Mr. Frank Powers, who shipped ore which returned \$500 to the ton, from his World's Fair group. A lease on one of them is held by Ed. Hoopp from Tombstone. The next to claim a mention were the Colorado boys: Ellis and Cap—of Denver. They are working the January, under a lease, and have a body of one two feet and a half wide. Their dump displays a carload of good stuff, and they are modestly jubilant.

The next claim is leased to Dick Farrell and Jack Morrison and they also have some ore to show for their enterprise. D. U. M. P.

A Mystery.

How the human system ever recovers from the bad effects of the numerous medicines often literally poured into it for the supposed relief of dyspepsia, liver complaint, constipation, rheumatism and other ailments is a mystery. The mischief done by bad medicines is scarcely less than that caused by disease. If they are weak, bilious, dyspeptic, constipated or rheumatic, would of course be guided by the experience of invalids who have thoroughly tested Hostetter's Stomach Bitters, they would in every instance obtain the speediest aid derivable from rational medication. This medicine is a searching and at the same time a thoroughly safe remedy, derived from vegetable sources, and possessing, in consequence of its basis of pure spirits, properties as a medicinal stimulant not to be found in the fiery local bitters and stimulants often resorted to by the debilitated, dyspeptic and languid.
